Ensto – Electrical Solution Provider

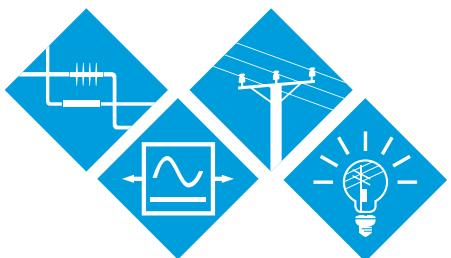

Ensto is an international family business, which designs and provides smart electrical solutions to improve the safety, functionality, reliability and efficiency of smart grids, buildings and transportation. *We want to create Better life. With electricity.*

Ensto was founded in 1958 and employs ca. 1,600 passionate professionals in Europe, the USA and Asia. In 2016, we generated turnover of ca. 260 million euros. Our business is divided into four business areas: Ensto Electrification, Ensto Lighting, Ensto Solutions and Ensto Utility Networks. We believe in a better life with electricity and a more sustainable tomorrow.

In Ensto Utility Networks we are committed to providing solutions for smarter grids with excellent network power

quality. Our proven technologies and unique customer support ensure reliable electricity distribution, which is the basis for Smart Grid. Ensto offers solutions for:

- Low and medium voltage overhead lines
- Low and medium voltage underground cables
- Power quality
- Network automation

Well Functioning Solutions

Ensto's solutions play a key role in building reliable, low-loss electricity distribution networks with disturbance-free service. High-quality products guarantee lower total costs for creating robust distribution networks.

We have thorough experience and knowledge of distribution networks in even the most demanding conditions: cold, hot, and stormy surroundings all over the world. Our products are developed in close cooperation with our customers. They are designed for a long service life, minimal need for maintenance, and a low life-cycle impact on the environment.

Tested to Meet Your Expectations

Ensto has fully equipped and calibrated testing laboratories in-house; even an accredited one in our headquarters in

Finland. We test our products to ensure meeting the toughest national and international standards – in fact, beyond standard requirements. We work with many international test laboratories and use well-known external laboratories for certification testing.

Answers Close to You

Ensto has local sales personnel in 20 countries, allowing us to serve and support our customers flexibly in their own language, thanks to a strong local presence. In addition, we sell throughout the world to more than 100 countries.

Unique Training

Ensto's extensive training program Ensto Pro provides continuing support and comprehensive training for our customers. The benefits of this training include time, cost, and energy savings and

fewer installation errors. Moreover, we receive reliable input on the solutions the customer truly needs. All Ensto Pro training sessions are customized according to customer needs.

Focus on Energy-Efficiency

Ensto is committed to building sustainable energy infrastructure with energy-efficient solutions.

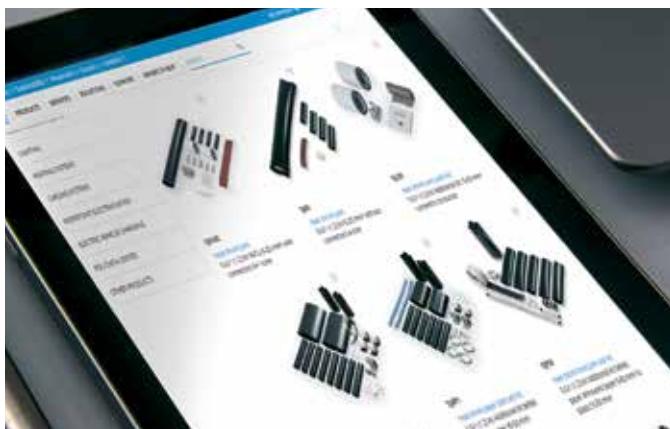

Higher-quality power and lower distribution losses are key to energy efficiency. Sustainability and efficiency are also achieved via recyclable materials, local expertise, and in-house manufacturing. Ensto's solutions for network power quality improve efficiency in electricity distribution and the quality of electricity. They save your time, money, and energy.

Ensto underground cable solutions

Comprehensive products and training

A well designed underground cable network guarantees uninterrupted electricity distribution. The Ensto Pro training academy provides professionals a comprehensive range of both theory based information and practical installation work.

Product information with you everywhere and on any device

Ensto web site includes thorough information about our solutions and detailed data on our products. The product data includes product cards and specifications for individual products.

Installation videos

Installation videos and animations help in installing our products as smooth and easy as possible – where ever, when ever.

- The videos can be found on our YouTube channel "EnstoGroup". Scan the QR code above to access them directly.

Ensto Pro Training Academy – training for professionals

Ensto Pro is a training program for both Ensto personnel and our customers. It includes theory on e.g. underground cable network construction and effective utilization of Ensto products and solutions. Moreover, the practical installations trainings with tips and best practices are very well-liked among our customers.

To stay in the frontline of the electrical industry we work in close cooperation with various national and international technical schools and universities.

- Contact our sales managers or visit our website for more information.

Tested quality

Our products are tested according to international standards in accredited laboratories. Ensto companies have received ISO 9001 and ISO 14001 quality management certificates. We carry out constant testing in our own laboratory in order to guarantee the quality of our products.

Ensto Pro

TRAINING ACADEMY

Ensto Pro is our technical training concept targeted to customers, partners and own personnel. The aim is **to support sales and create loyal customer relations** by sharing knowledge.

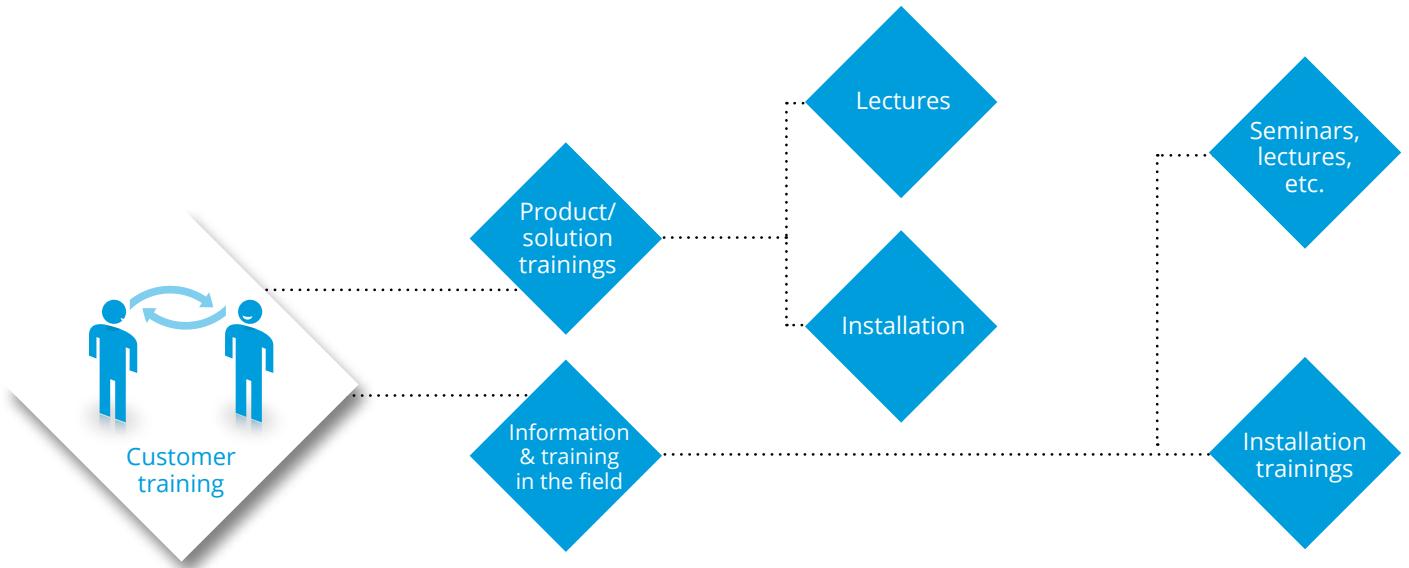

As our customer you gain these benefits from Ensto Pro training

- Time, cost, and energy savings
- Fewer installation errors
- Confidence and motivation
- The opportunity to have an influence
- New perspectives.

Better life.
With electricity.

Ensto Pro Training Academy

Assuring Know-How and Reliable Installations

Ensto Pro – and You Know!

Our Knowledge at Your Disposal

Customer training sessions are a vital part of our operations. We offer more than products: a complete package with reliable solutions, professional service, and customized support. They allow us to create profitable, long-term relationship of true collaboration.

Ensto has offered technical training to customers for decades. We want to share with you our 60-year experience in electricity network building and making the most of our products in varied, demanding circumstances. At the same time, we wish to learn from your experiences and truly understand your requirements, thereby becoming able to develop our products to best meet those precise needs.

Unique and Customized Training

Training helps to create true connection between us and you, the customer. We get realtime information on what you want, while you can learn about, for instance, products, installation methods, and distribution network design.

Our Ensto Pro service is unique:

- We give local service in the local language.
- We customize all Ensto Pro trainings.
- We are easy-going professionals.
- We enforce our credibility with a consistent and appealing appearance and presentation.
- We emphasize two-way learning.
- We keep our promises.

Variety of Training Types

Our customer training ranges from small installation sessions to large lecture-type events. Also, we are ready to teach about a host of topics as customer needs and wishes dictate.

Often, we arrange, or are involved in, sessions attended by professionals from various institutions, such as cable manufacturers and energy-market authorities. By offering all the necessary information in one session, we save time and energy. We care about your success.

Cable lugs and connectors for a wide range of cross-sections

Our cable lugs and connectors have been designed to make installation as easy and effortless as possible. All our connectors and cable lugs have been equipped with shear-head bolts, which guarantee a reliable and uniform end result without the need for special tools.

Low voltage 6–300mm²

SLJ connectors + LUG cable lugs

- Suitable for cables with aluminum and copper conductors and for both plastic and paper insulated cables.
- Cable lugs and connectors for a wide range: 6–300mm².

Medium voltage 10–1000mm²

SMJ and M connectors + SML and C cable lugs

- Suitable for cables with aluminum and copper conductors and for both plastic and paper insulated cables.
- Cable lugs and connectors for a wide range: 10–1000mm².

Cable lugs and connectors

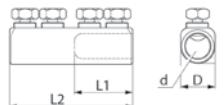

For low voltage

SLJ shear head bolt connectors and SJ screw connectors

The connectors are used for jointing conductors of up to 1 kV cables. Because of the shear head bolt construction, no crimping tools are needed. The required torque of SLJ connectors is achieved by tightening the bolt until it breaks off. SJ0.47 has non-breaking screws. The connectors are water tight and suitable for solid and stranded, sector shaped and circular conductors. The core insulation may be plastic or paper.

| Product code | GTIN | Conductor size mm ² | No. of screws | L1 mm | L2 mm | d mm | D mm | Weight (kg) |
|--------------|---------------|--------------------------------|---------------|-------|-------|------|------|-------------|
| SLJ0.47 | 6418677418464 | Al/Cu 6-25 | 4 | 24 | 50 | 7 | 7 | 0.015 |
| SLJ1.27 | 6418677458187 | Al/Cu 6-50 | 2 | 26 | 54 | 11 | 20 | 0.034 |
| SLJ1.47 | 6438100306663 | Al/Cu 6-50 | 4 | 39 | 80 | 11 | 20 | 0.062 |
| SLJ2.27 | 6418677458194 | Al/Cu 35-95 | 2 | 23.5 | 58 | 16 | 27.5 | 0.067 |
| SLJ2.47 | 6438100306670 | Al/Cu 35-95 | 4 | 38.5 | 88 | 16 | 27.5 | 0.239 |
| SLJ3.47 | 6418677459726 | Al/Cu 95-240 | 4 | 58 | 119 | 25.5 | 37.7 | 0.278 |
| SLJ4.47 | 6418677459733 | Al/Cu 150-300 | 4 | 63.5 | 130 | 43 | 42.6 | 0.382 |

SLJT filling parts

The filling parts are used together with shear head bolt connectors SLJ, when it is necessary to join conductor sizes smaller than the range of the connector allows. They are suitable for both aluminium and copper conductors. The part increases the size of the conductor to the minimum size the connector requires.

| Product code | GTIN | Description | Weight (kg) |
|--------------|---------------|--------------------------------|-------------|
| SLJT2 | 6438100303211 | 16-35 mm ² SLJ2.27 | 0.006 |
| SLJT3 | 6438100303228 | 50-70 mm ² SLJ 3.47 | 0.015 |
| SLJT4 | 6438100303235 | 95-120 mm ² SLJ4.47 | 0.030 |

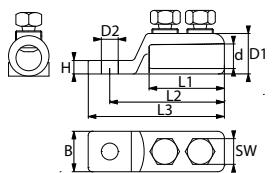

LUG shear head bolt cable lugs

The cable lugs are used for terminating conductors of up to 1 kV cables. Because of the shear head bolt construction, no crimping tools are needed. The required torque is achieved by tightening the bolt until it breaks off. The lugs are water tight and suitable for solid and stranded, sector shaped and circular conductors.

Cable lugs and connectors

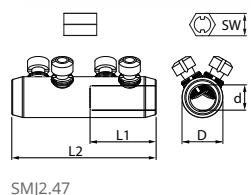

For medium voltage

Shear head bolt connectors

The connector is used for jointing conductors of cables up to 36 kV. Because of the shear head bolt construction, no crimping tools are needed. The required torque is achieved by tightening the bolt until it breaks off. The adapter needed in tightening is included in the package. The connector is water tight. It is suitable for aluminium and copper conductors: solid and stranded, sector shaped and circular. The cable core insulation may be plastic or paper.

Low voltage solutions

Joints and terminations up to 1kV

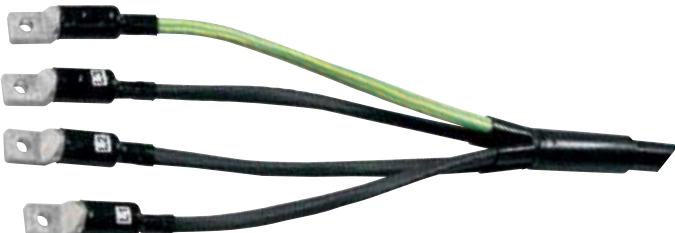

The share of underground cabling in electricity distribution networks is increasing. Under the ground, the cables are protected against the demanding climate which makes the cable network very durable. Ensto's selection for underground distribution networks includes complete product packages for low voltage underground cable installations.

Products that are easy to install

Ensto's accessories for underground distribution networks comprise high quality product packages tested according to international standards. We are constantly developing our solutions and the cooperation with our customers offers significant help in the development work. Our extensive product selection

includes cable lugs and cable connectors, indoor and outdoor terminations as well as joints for plastic and paper insulated cables up to 1kV.

Clear, illustrated, easy-to-follow installation instructions help in achieving a reliable result.

Terminations

- Packages include all components required for terminating a cable.
- Available both with and without cable lugs.

Cable joints

- For plastic and paper insulated cables including transition joints.
- Less money tied up in stock and more options for cable joints.
- Packages available both with and without shear-head bolt connectors.

Heat shrink tubes

- Production of heat shrinkable tubing in our new production facilities and with world-class machinery located in Porvoo, Finland.
- We use only the best, halogen-free raw materials.
- Ensto's own compound recipe is carefully developed and fine-tuned for the highest quality possible.

Low voltage cable accessories

Heat shrink cable joints

Heat shrink joints

SJK joint kits

The joint kit is used for jointing 1 kV cables with plastic insulation and plastic outer sheath. The kit is suitable for 4 to 4 core and 4 to 3+1 core cables. The kit includes four shear head bolt connectors suitable for both aluminium and copper conductors, grinding and cleaning materials, four heat shrink tubes for insulation and one for outer protection.

| Product code | GTIN | Conductor size mm ² | Connectors |
|--------------|---------------|--------------------------------|-------------|
| SJK0C | 6438100300944 | Al /Cu 6-25 | 4 x SJ0.47 |

| SJK4C | 6418677459771 | Al/Cu 150-300 | 4 x SLJ4.47 |

SJK joint kits without connectors

The joint kit is used for jointing 1 kV cables with plastic insulation and plastic outer sheath. The kit is suitable for 4 to 4 core and 4 to 3+1 core cables. The kit includes grinding and cleaning materials, four heat shrink tubes for insulation and one for outer protection. The connectors are not included.

| Product code | GTIN | Conductor size mm ² |
|--------------|---------------|--------------------------------|
| SJK0 | 6418677446443 | 6-25 |
| SJK1 | 6418677403170 | 25-70 |
| SJK2 | 6418677403194 | 50-120 |
| SJK3 | 6418677403224 | 95-240 |
| SJK4 | 6418677407772 | 150-300 |

SJKV joint kits

The joint kit is used for jointing 1 kV cables with plastic insulation and plastic outer sheath. The kit is suitable for jointing 4+1 and 3+1 core cables. The kit includes five shear head bolt connectors suitable both for aluminium and copper conductors, grinding and cleaning materials, four heat shrink tubes for insulation and one for outer protection.

| Product code | GTIN | Conductor size mm ² | Connectors |
|--------------|---------------|--------------------------------|---------------------------|
| SJKV0C | 6438100301033 | Al/Cu 6-25 | 5 x SJ0.47 |

| SJKV3C | 6438100301064 | Al/Cu 95-240 | 5 x SLJ3.47 |
| SJKV4C | 6438100301071 | Al/Cu 150-300 | 4 x SLJ4.47 + 1 x SLJ3.47 |

SJA additional kits for 3 core paper cables with Al-sheath to plastic cables

The additional kit is used together with a 1 kV joint kit SJK for jointing of belted paper insulated, aluminium sheathed 3 core cables. The kit is suitable for transition from belted paper insulated 3 core cable with Al sheath to 4 core plastic insulated cable. The kit includes three heat shrink tubes for protection of the paper insulation, a heat shrink breakout, a piece of H07V-K cable for jointing the aluminium sheaths.

| Product code | GTIN | Conductor size mm ² | Basic kit |
|-----------------|---------------|--------------------------------|--------------|
| With hose clips | | | |
| SJA1 | 6418677445675 | Al/Cu 35-50 | SJK1C |

STKO outdoor termination kits 3+1 core

The termination kit is used for outdoor terminating of 1 kV cables with plastic insulation and plastic outer sheath. The kit is suitable for 3+1 core cables (cables with concentric conductor). The kit includes four shear head bolt cable lugs suitable for both aluminium and copper, black and green/yellow heat shrink tubes for outer protection of the cores, four shorter heat shrink tubes for core sealing, and a heat shrink breakout for sealing.

STA termination kits for paper cable with Al-sheath

The termination kit is used for indoor and outdoor terminating of 1 kV belted paper insulated, aluminium shielded 3 core cables. The kit includes four shear head bolt cable lugs suitable for both aluminium and copper, a piece of H07V-K cable for terminating the aluminium shield, black and blue heat shrink tubes for outer protection of the cores, four shorter heat shrink tubes for core sealing, and a heat shrink breakout for sealing.

SEC cable end caps

Cable end caps are used to protect the cable ends against moisture and dirt. The end caps are useful especially when cables are stored outdoors. The caps are suitable for both plastic and belted paper insulated 1 kV cables as well as for telecommunication cables. They are UV resistant and halogen free and with adhesive. The colour is black.

Medium voltage solutions

Joints and terminations for up to 42kV

An underground cable network is relatively maintenance free and has a long service life. Ensto's solutions for underground distribution networks offer functional and reliable medium voltage accessories with both heat and cold shrink technologies. Moreover, our hybrid joints and terminations are an effective and durable combination of both technologies. The products have been tested according to international standards. Clear installation instructions help in achieving a uniform and reliable end result.

Heat shrink accessories

Ensto heat shrink products cover 12–36kV indoor and outdoor terminations and joints. The selection includes separate accessories for both plastic and pa-

per insulated cables and for transition joints. The packages contain all components required in a cable termination or joint. The stress control tube and the insulating sleeve are combined in the

joints. This reduces the number of components and makes installation work quicker.

Cold shrink and hybrid accessories

Cold shrink accessories enable working in places where hot work permits are difficult to obtain or where hot work is otherwise not possible. E.g. oil refineries, many chemical plants and other industrial facilities tend to favour work methods that do not require hot work.

The hybrid joints, on the other hand, are a carefully selected combination of cold and heat shrink components that together ensure a durable joint. Ensto's hybrid joints, cold shrink terminations and separable connectors have multiple uses and a wide range of applications can be covered fully with only

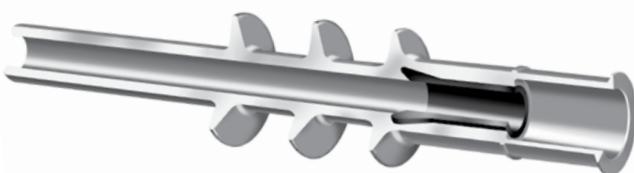

Cable joints

- Dual layer stress control technology in 24kV solutions.
- Packages available both with and without connectors.

Terminations

- Easily shrinkable stress control tube.
- Reliable, conventional structure.
- Stress control using a separate tube for good and uniform shrinkage – especially in tight spaces.

a small number of products. The installation work is fast because there are only a few work steps. The packages contain all components required in terminating or jointing cables.

Cable joints

- Spiral technology: quick and easy to install.
- Cold shrink and hybrid joints.
- All-in-one joints.

Cable terminations

- One termination tube combining stress control, rainsheds and antitracking tube.
- Spiral technology.
- Ready for use right after the installation.
- Indoor and outdoor terminations.

Screened Separable Connectors

- For installing plastic cables (12 and 24kV) for transformers, motors, and especially SF₆ switch-gears both indoors and outdoors.
- Installation is quick and easy.

HJTW11 transition joint kits 3 core paper to AHXAMK-W

The joint kit is used for jointing of paper insulated max. 24 kV cables with individual metal sheaths to AHXAMK-W cables. The kit suits for unarmoured paper insulated cables as it is. For armoured paper insulated cables an additional kit SJEW20 is needed.

| Product code | GTIN | Conductor size mm ² |

Cold shrink cable joints

CJAIOT11 All-in-One transition joint kits 1 core XLPE Cu wire and Al laminate screen to 1 core paper cable with Al or Pb sheath

CJAIOT11 (AIOT) joint kit is used for jointing of medium voltage cables with XLPE insulation with copper wire screen or aluminium laminate shield to paper cable with aluminium or lead sheath. The kit is suitable for single core cables, containing the components for one core.

| Product code | GTIN | Conductor size mm ² 12 kV | Conductor size mm ² 24 kV | Min. diameter on the insulation mm |
|----------------------|---------------|---|---|---------------------------------------|
| 24 kV with connector | | | | |
| CJAIOT11.2403C | 6438100320775 | 95-240 | 70-240 | 18,4 |

CJAIO11 All-in-One repair joint kits for 1 core XLPE with Cu wire and Al laminate screen

CJAIO11 -REP(AIO) joint kit is used for repairing medium voltage cables with XLPE insulation with copper wire screen or Al laminate shield. Length of repair joint is 1 m and the kit contains the components for one core.

| Product code | GTIN | Conductor size mm ² 12 kV | Conductor size mm ² 24 kV | Conductor size mm ² 36-42 kV | Min. diameter on the insulation mm |
|----------------------|---------------|---|---|--|---------------------------------------|

Medium voltage cable accessories

Screened Separable Connectors

Screened straight and elbow connectors for 250 A

Screened 250A elbow type straight connectors and pin type straight connectors are used for connections to transformers and switchgears up to 24kV with bushings according to EN 50180 and EN 50181, connection type A (250 A). Suitable for 3-core plastic cables (XLPE, EPR, PE, etc.) both indoors and outdoors. Three phase set including shear head bolt cable lug.

| Product code | GTIN | Description | Conductor size 24 kV mm ² | Current A |
|--------------|---------------|--------------------|---|--------------|
| CONE250.2 | 6438100319830 | Elbow Connector | 25-95 | 250 |
| CONS250.2 | 6438100319847 | Straight Connector | 25-95 | 250 |

Screened separable connectors for 630 A

Screened 630 A connectors are used for connections to transformers and switchgears up to 24kV with bushings according to EN 50180 and EN 50181, connection type C1 (630 A). Suitable for plastic cables (XLPE, EPR, PE, etc.) both indoors and outdoors. Three phase set including shear head bolt cable lugs.

| Product code | GTIN | Conductor size 12 kV mm ² | Conductor size 24 kV mm ² | Current A |
|--------------|---------------|---|---|--------------|
| CONT630.1 | 6438100319755 | 25-70 | 25-70 | 630 |

Cable distribution cabinets

Ensto Rapid - Easy, fast and cost-effective

Ensto Rapid cable distribution cabinets are extremely quick to install. After mounting the cabinet, just plug the cables to the pre-installed terminals and you are ready.

Ensto Rapid – a ready solution

Traditionally a cable distribution cabinet has to be built piece by piece from multiple separate components.

– Ensto Rapid is here to ease things up. Ensto Rapid cable distribution cabinets are pre-installed sets that combine the cabinet, terminals and the fuse bases into one, simple solution. Just lower the base of the cabinet and connect the cables to the pre-installed terminals.

Why choose Ensto Rapid over a traditional distribution cabinet?

Ensto Rapid is an ideal solution to places, where only 1-3 fused outputs are needed and where the fuse protecting of the cables is rated 250A. Ensto Rapid cabinets have been sized especially for these needs.

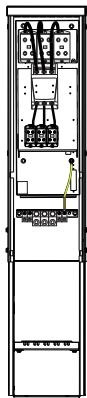

Less to order

As the components of Ensto Rapid cable distribution cabinets have been pre-assembled the factory, the cabinets are always easy to order.

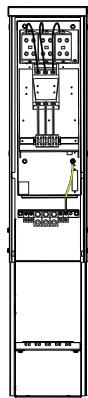

Rapid 2 series

Height: 850mm | Width: 312mm | Depth: 223mm

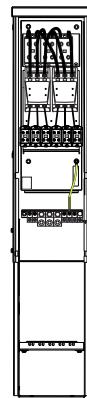

Ensto Rapid 2.1/1

Main cable line for two 35-240mm² cables. Branch output is 2 x 6-50mm² from one fuse base.

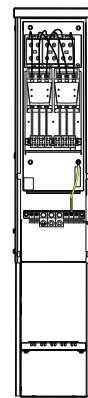

Ensto Rapid 2.1/2

Main cable line for two 35-240mm² cables. Branch output is 2 x 16-95mm² from one fuse base.

Ensto Rapid 2.2/11

Main cable line for two 35-240mm² cables. Branch output is 4 x 6-50mm² from two fuse bases.

Ensto Rapid 2.2/22

Main cable line for two 35-240mm² cables. Branch output is 4 x 16-95mm² from two fuse bases.

Lamp post fixtures

Convenient street-lighting

Ensto offers a wide selection of products for connecting and branching underground cables on lamp posts. Ensto's lamp post fixtures are suitable for many different lamp posts. The complete kits make the installation work easy and fast.

Handy products

The Ensto selection includes KE connectors, connector series, fuse bases, circuit-breakers, lamp post fixtures, fuse and branch boxes and lamp post cabinets.

KE connectors and series

- Transparent connector casing
 - easy to install.
- Durable materials.
- A blue connector available for the neutral conductor.

Lamp post fixture kits

- Kits especially suitable for connecting both aluminum and copper conductors.
- Alternative kits including either a 6A or 10A fuse base, several KE connectors and a 16mm² ground conductor (length 35cm, equipped with a cable lug for the neutral connector).

Fuse boxes and branch boxes

- Enclosures manufactured of weather- and impact-resistant, recyclable polycarbonate plastic.

Lamp post cabinets

- Available as hot galvanized or painted.
- In addition to standard colors, also RAL colors are available by special order.
- Factory-fitted lamp post cabinets.

Lamp post fixtures

Branching connectors

Ensto connectors are tinned to suit for both aluminium and copper conductors (4 or 6 conductors). The connectors can be used as L, N, PE or PEN connectors.

| Product code | GTIN | Description |
|--------------|---------------|--|
| KE10.1 | 6418677400049 | Al 4x10-35 mm ² / Cu 1.5-25 mm ² |
| KE10.1N | 6438100330705 | Al 4x10-35 mm ² / Cu 1.5-25 mm ² |
| KE10.3 | 6418677400063 | Al 6x10-35 mm ² / Cu 1.5-25 mm ² |
| KE10.504 | 6418677400087 | Al 4x10-50 mm ² / Cu 2.5-35 mm ² |
| KE10.504N | 6418677455421 | Al 4x10-50 mm ² / Cu 2.5-35 mm ² |
| KE10.506 | 6418677400094 | Al 6x10-50 mm ² / Cu 2.5-35 mm ² |
| Covers | | |
| PMR2680.3 | 6438100321352 | for KE10.1 and KE10.504(N) connectors |
| PMR2680.4 | 6438100308384 | for KE10.1 and KE10.504(N) connectors |

Branching connector sets

SV connector sets are used for connecting and branching aluminium and copper cables in lamp posts or in cable cabinets.

| Product code | GTIN | Description |
|--------------|---------------|--|
| SV15 | 6418677405624 | 3xKE10.1 and 1xKE10.3 (10-35Al/1.5-25Cu) |
| SV15.5 | 6418677405716 | 4xKE10.1 and 1xKE10.3 (10-35Al/1.5-25Cu) |
| SV50 | 6418677405808 | 3xKE10.504 and 1xKE10.506 (10-50Al/2.5-35Cu) |

Fuse bases

LFB-R fuse bases with fuses and 4 mm² or 10 mm² conductors for lamp post installations.

| Product code | GTIN | Description |
|---------------|---------------|--|
| LFB16-06A-R | 6438100320904 | Fuse base with 6 A fuse and a 4 mm ² conductor |
| LFB16-10A-R | 6438100320911 | Fuse base with 10 A fuse and a 4 mm ² conductor |
| LFB16.1-06A-R | 6438100320966 | Fuse base with 6A fuse and a 10 mm ² conductor |
| LFB16.1-10A-R | 6438100320973 | Fuse base with 10A fuse and a 10 mm ² conductor |

Lamp post fixtures

LCK and SV fuse base and connector sets are used for connecting and branching aluminium and copper cables in lamp posts or in cable cabinets.

| Product code | GTIN | Description |
|--------------|---------------|------------------------|
| LCK4-16-06A | 6438100309176 | LFB16-06A-R and SV15 |
| LCK5-16-06A | 6438100309183 | LFB16-06A-R and SV15.5 |
| LCK4-16-10A | 6438100309190 | LFB16-10A-R and SV15 |
| LCK5-16-10A | 6438100309206 | LFB16-10A-R and SV15.5 |
| SV15.105 | 6438100323523 | SV15.5 and SVV3.1 |
| SV15.12 | 6418677405693 | SV15 and SVV3 |
| SV15.125 | 6418677405709 | SV15.5 and SVV3 |

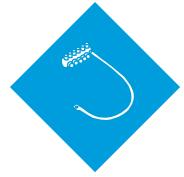

Circuit breakers

Circuit breakers, IP20, with mounting plates for lamp post installations.

| Product code | GTIN | Description |
|--------------|---------------|--------------|
| SVV3 | 6418677405853 | 10 A |
| SVV3.1 | 6438100323790 | 6 A |
| SVV3.2 | 6418677405877 | 10 A, 2 pole |

Branch boxes

Branch boxes include branching connector sets.

| Product code | GTIN | Description |
|--------------|---------------|-------------------|
| SK175 | 6418677403439 | Cable dia 2x16-25 |
| SK180 | 6418677403446 | Cable dia 2x22-32 |

Fuse boxes

Fuse boxes include fuse bases for 25A or 63A installations. Fuses are not included.

| Product code | GTIN | Description | Box dimensions |
|--------------|---------------|-------------|----------------|
| SK180.25 | 6418677403453 | 3x25 A | 300x130x200 mm |
| SK180.63 | 6418677403460 | 3x63 A | 300x130x200 mm |
| SK185.63 | 6438100328283 | 3x63 A | 300x130x300 mm |

Lamp post cabinets

Cabinets with or without connectors and fuse bases for 25A or 63A installations.
Fuses are not included.

| Product code | GTIN | Description |
|----------------------|---------------|---------------------------------------|
| Zinc coated cabinets | | |
| SK160 | 6418677403378 | Zinc coated |
| SK160.1 | 6418677403385 | Zinc coated, SV15.11 |
| SK160.2 | 6418677403392 | Zinc coated, SV15.11 + SVV1.10 |

Tools

Reliable and safe installation

Ensto's tool selection comprises products especially designed for the needs of network installers. Our tools make the installer's work easier and guarantee a safe installation. A well-performed installation can lengthen a network's service life. Ensto's selection includes various professional hand tools and cable work equipment.

Handy tools for smooth installation

Our tools selection consists of high-quality cable preparation tools for medium and low voltage underground cables, installation tools for both underground cable and overhead line accessory installation and various measuring equipment.

Cable preparation tools

- Insulation removal tools.
- Insulation screen removal tools.
- Outer sheath removal tools.
- Combined tools for outer sheath and insulation removal.
- Cable stands.

Other tools

- Earthing devices.
- Hand tools.
- Measuring equipment.
- Pole climbing irons.
- Cable pulling and handling equipment.
- + large variety of tools for different purposes.
